*Angus and the Ducks*, by Marjorie Flack

### The Craft:

This craft is a paper duck made with just a piece of paper and some glue.

What you'll need:

- 1 duck cutout (provided [here](#))
- Scissors
- Colored markers or crayons
- Glue

Instructions:

First, use the scissors to cut out the duck.

Color the duck in using the markers, making sure to give it eyes.

Lastly, fold the duck up so that the bottom strip lies flat and the two halves of the cut out are aligned and then glue the top edges together, and, voila, you have a duck!
